SUMMARY

Versatile and results-driven **software developer** with a strong foundation in **web**, **mobile**, and primarily **backend development**, backed by extensive experience in **SaaS** solutions. Demonstrated ability to manage and execute **full-stack** projects across **web**, **cloud**, and **mobile** platforms, with expertise in **Golang, Js/Ts**, **React**, **React Native**, **Node.js**, **C/C++**, **PostgreSQL**, **MySQL**, and **Firebase**. Skilled in **design patterns**, **data structures**, and **cloud services**, with over four years of experience. Nearing completion of a Computer Science degree at UFMS, bringing hands-on experience as a Web and Junior Developer. Proficient in English, adaptable, and dedicated to delivering scalable solutions with a focus on continuous learning in dynamic environments.

EXPERIENCE

Alphatec, Remote — Developer/*Contract*

📅 July 2024 - September 2024

Optimize the planning and development process of the social inclusion software used by the company.

Technologies used: C#, Figma and MVP.

Brbyte, Remote|Campo Grande— *Software developer*

📅 Dezember 2021 - August 2022

Full Stack, Software Development, Saas, Android, Web, backend, Support Network(NAS, OLT).

Technologies used: JS/TS, C, Postgres, React, React Native, Data Structure, Linux Server.

Azon, Primavera do Leste — *Web Developer*

📅 January 2020 - July 2021

Project elaboration, Full Stack, Hosting Management, Planning and Execution.

Technologies used: HTML, CSS, JS/TS, Node Js, React, Wordpress, Cpanel, Firebase, NoSQL, Figma.

LAST PROJECTS

Admin Panel

Panel made in react using firebase offline first and real-time synchronization.

Technologies: React.js · css · HTML5 · HTML · Front-End Development · Front-End Design · Front-end Coding · API · CRUD · Firebase · Nosql · Material-ui · TypeScript · Cloud Firestore · Real-time Monitoring · Cloud Storage · Cloud Applications.

🔗 github.com/DeividReinkeSchiitz/AdminPanel

C/C++ VM code

Code and folders structure for a virtual machine Unix like system made in C. Logs, docs, bash scripts, bins, testers, static/dynamic libraries, makefiles, data structures.

Technologies: C · Unix · Bash · Git · Gitlab · Cloud Applications · Cloud Computing · Testing · Internet Protocol Suite (TCP/IP) · webhook · Project Management · Standard Template Library (STL) · Data Structures · Oracle Database

EDUCATION

HIGH SCHOOL, *Federal Institute of Mato Grosso*

📅 january 2018 - December 2020

High school integrated. He worked as a monitor in the field of Machine Elements.

INFLUX LANGUAGE SCHOOL, *Advanced english Course*

📅 July 2018 -December 2020

Advanced english course concluded at the end of 2021.

TECHNICIAN COURSE, *Federal Institute of Mato Grosso*

📅 January 2018 - December 2020

Electromechanical course integrated in High School.

COMPUTER SCIENCE, *Federal University of Mato Grosso do Sul*

📅 January 2022- July 2025

Computer Science course at FACOM in the campus of Campo Grande.

SANTANDER CODERS, *CODING-TANK*

📅 Julho 2024- Agosto 2024

Professionalization in the Santander Coders program with the Ada Tech team through the Back-End track. **Technologies used:** Git and versioning, Networks, Java, Object-Oriented Programming, Design Patterns.

LANGUAGES

ENGLISH, **C1** - *Advanced*

PORTUGUESE, **C2** - *Fluent*
